The application has been amended as follows: at line 10, of claim 1 -- delete "or" and insert --of--.

4. The following is an examiner's statement of reasons for allowance: As stated in the Office action mailed on April 29, 2008, the closest prior art of record US Patent 6,962,199 does not teach or fairly suggest the limitation of instant independent claim 1 for the specific spacing of the wing tips located at a spacing S less than $0.2W$ from an inner surface of the tubular midstream vortex generation section. This critical feature allows an enhancement of separation efficiency due to the formation of spaced vortices at the tips of the wings. None of the prior art of record teaches nor suggests the importance of this specific distance, so that claim 1 is both novel and non-obvious.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SONJI TURNER whose telephone number is (571)272-1203. The examiner can normally be reached on Monday - Friday, 10:00 am – 2:00 pm (EST).
